2023
NHRC

T&T's 4th Annual Health Research Conference

BACKGROUND

The 2023 National Health Research Conference (NHRC) provides a forum in which local research findings can be shared with stakeholders to facilitate uptake and use in decision-making to address the country's health priorities.

The Conference is made possible through the collaborative work of several partners in health:

- Ministry of Health
- Tobago House of Assembly (THA)
- Faculty of Medical Sciences & Caribbean Centre for Health Systems Research and Development, The University of the West Indies
- The University of Trinidad and Tobago
- The University of the Southern Caribbean
- The Five (5) Regional Health Authorities (RHAs)

The Conference will feature research papers (oral and poster presentations) on COVID-19 and Emerging Diseases, Chronic Non-Communicable Diseases, Clinical/Laboratory Studies, Mental Health, Veterinary Studies and more. The NHRC is attended by policymakers, researchers, health, and allied health professionals (physicians, nurses, psychologists, laboratory technicians, etc.) and other public health officers.

The theme of the 2023 Conference is

'Healthcare for the Future: Emerging Threats and Sustainable Solutions'

This is especially relevant as there is a need to strengthen the health care system post-COVID-19, and this should be guided by local, contextualized data and research evidence. This Conference also enables the dissemination of research evidence to address other health priorities of Trinidad and Tobago, as well as the development of evidence-informed policy and programming, aimed at improving the health outcomes of the population.

OBJECTIVES

- To share research findings with key stakeholders (health care providers, Ministries, RHAs, Academic Institutions, general public, etc.);
- To strengthen the national health research culture;
- To build research capacity and nurture junior researchers;
- To foster collaboration among researchers at different institutions;
- To share policy relevant messages with the users of research, that is, care providers, policymakers and planners.

EVENT INFO

- **Date:** November 17, 2023
- **Time:** 8:00 AM – 6:30 PM
- **Venue:** Hyatt Regency Hotel, Port of Spain

HIGHLIGHTS

Key Speakers

- Keynote address by The Honourable Terrence Deyalsingh, Minister of Health of Trinidad and Tobago
- International Guest Speaker (TBC)
- Local Renowned Feature Speakers

Prize Giving & Awards Ceremony and Reception

- Lifetime Research Achievement Award
- Prizes for:
 - Early Career Researcher
 - Student Researcher
 - Best Oral Presentation
 - Best Poster Presentation
 - Conference Delegates' Choice – Best Poster

REGISTRATION

Registration fees are \$400 TTD for undergraduate and postgraduate students and \$700 TTD for other delegates. Lunch and refreshments are included.

The Conference is open to individuals with an interest in research for health, including Medical Practitioners, Researchers, Regional Health Authority Administrators, Ministry of Health Officials, Laboratory Specialists, University Staff and Students.

Registration is open at www.healthresearchconferencett.com/registration
